

Release Notes Version 5.7 Revision 98c00c

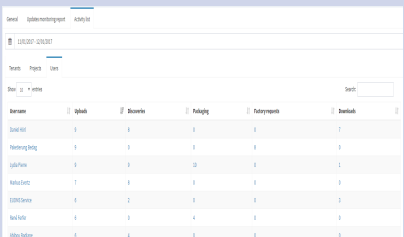

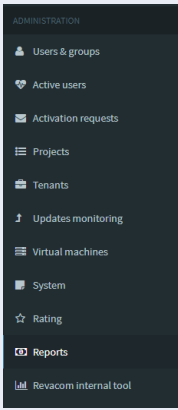

The purpose of this document is to detail the enhancements now available in revision 98ce00c of version 5.7 of the Apptimized automated application packaging toolset.

Apptimized is an automated application packaging toolset, providing end-users with a web-based packaging capability via an online portal.

The toolset has been developed to reduce the complexity and time taken to create application packages in either MSI or App-V formats for deployment to MS Windows Desktop and Terminal Server platforms.

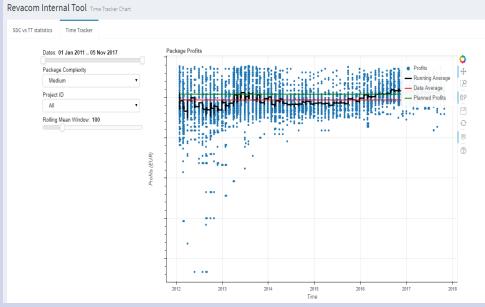

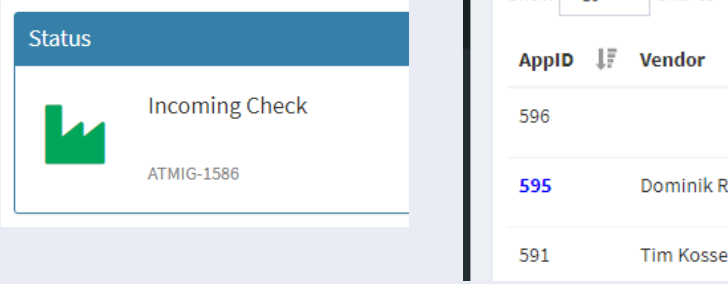

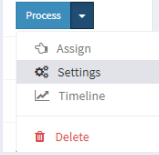

Apptimized is a proprietary technology supported by a team of in-house developers. Apptimized can be accessed via <https://www.apptimized.com>
